Subject of Review: Demand for organic food is estimated using Nielsen Homescan data. The Nielsen Homescan panel reported their retail food purchases, including quantity, spending, and detail product description, as well as their socio-economic and demographic characteristics. The data are suitable for describing the retail organic food market as well as to examine consumer's decisions toward purchasing organic foods. Descriptive analyses as well as econometric modeling have been conducted using the 2003-06 Homescan data.

Purpose of Review: The purpose of the review is to ensure the high-quality of the economic analysis, transparent explanation of methods, objective interpretation of results, and effective communication to the intended audience.
